Online Resource for 4-H Club Managers

CLUB ED was developed as a resource for club officers and club managers to gather ideas, management information, ceremonies, inspirations, program ideas, and other great club resources.

CLUB ED is organized month by month in order to make it easier for information gathering. In each month you will find the following pieces of infor-

mation: Club Activities, Club Managers Checklist, Community Service Activities, Flag Ceremonies, Ice Breakers, Inspirations, Parent Opportunities and Program Ideas. CLUB ED is located at <http://texas4-h.tamu.edu/clubed/>

The Extension office will be closed on Monday, February 17th in observance of Presidents Day.

Patriotism Through Preparedness

Heavy snowfall and extreme cold can immobilize an entire region. Even areas that normally experience mild winters can be hit with a major snowstorm or extreme cold. Winter storms can result in flooding, storm surge, closed highways, blocked roads, downed power lines and hypothermia.

Familiarize yourself with these terms to help identify a winter storm hazard: **Freezing Rain:** Rain that freezes when it hits the ground, creating a coating of ice on roads, walkways, trees, and power lines.

Sleet: Rain that turns to ice pellets before reaching the ground. Sleet also causes moisture on roads to freeze and become slippery.

Winter Storm Watch: A winter storm is possible in your area. Tune in to NOAA Weather Radio, commercial radio, or television for more information.

Winter Storm Warning: A winter storm is occurring or will soon occur in your area.

Blizzard Warning: Sustained winds or frequent gusts to 35 miles per hour or greater and considerable amounts of falling or blowing snow (reducing visibility to less than a quarter mile) are expected to prevail for a period of three hours or longer.

Frost/Freeze Warning: Below freezing temperatures are expected.
