

Developing a Drought Management Plan for the Ranch

Justin Benavidez, PhD, Assistant Professor & Extension Specialist, Agricultural Economics

Pancho Abello, Assistant Professor & Extension Specialist, Agricultural Economics

Morgan Treadwell, PhD, Associate Professor & Extension Specialist, Rangeland, Wildlife & Fisheries Management

Jason Smith, PhD, Assistant Professor & Extension Beef Cattle Specialist, Animal Science

Can livestock producers reduce risk of losses during a drought?

Is it possible to turn a profit during periods of low precipitation?

Join Texas A&M AgriLife Extension Service faculty for a two-week online seminar series to find out!

Participants will receive information on:

- Risk management tools
- Research-based drought and wildfire mitigation and recovery strategies
- Strategies for successfully feeding through droughts
- Options to consider for herd management during droughts

Completion provides three TDA Pesticide Applicator CEU's (Two general, One IPM)

Webinar Series:

April 13, 2021 7:00-9:00 PM

April 15, 2021 7:00-9:00 PM

April 20, 2021 7:00-9:00 PM

April 22, 2021 7:00-9:00 PM

Registration Information:

Fee: \$50.00

The required registration is at

<https://agriliferegister.tamu.edu/Ranch>

For more information on the webinar series, contact AgriLife Extension economist Dr. Justin Benavidez at benavidezjustin@tamu.edu
